

Pharmacy Insurance

## YOUR BUSINESS. YOUR LIVELIHOOD.

**You've worked hard to build a successful pharmacy business; serving the community with trusted, valued healthcare and advice.**

We understand the business challenges that pharmacists face and the importance of making sure your business is financially healthy and protected from unexpected business risks.

Risks that could threaten the viability of your business can emerge at any time. That's why it's important to ensure your business is adequately protected against potential threats with an appropriate level of insurance.

At Shadforth, we have gained a sound understanding of the challenges facing the retail pharmacy industry through many years of direct experience in providing trusted advice, solutions and services specifically for pharmacists just like you.

Our aim is to ensure that should an unforeseen event occur, your financial risk is alleviated and your business operations are protected and maintained.

Our Pharmacy Insurance Package involves regular, personal meetings with Pharmacy owners to identify risks and to determine appropriate insurance needs.

As part of the Shadforth Financial Group we are one of Australia's leading privately owned financial services firms which means that we are free of ownership or control by the large insurance companies and as such can provide you with quality services and advice tailored to your business requirements.

Your business will be serviced by a dedicated adviser, who, supported by a dedicated team can handle all claims and enquires.
